

Dynamic Premium Yield PLUS Fund

Series FH (USD) | Performance as at February 28, 2026. Holdings as at February 28, 2026.

Why invest in Dynamic Premium Yield PLUS Fund ?

- Access to an alternative portfolio strategy, which includes options writing, to provide U.S. equity exposure with reduced volatility.
- Use of moderate leverage to potentially enhance total returns, including offering a higher yield, but with systematic downside protection.
- Diversification benefits provided by options writing through a low correlation to bonds and interest rates.

Growth of \$10,000

Inception	2018 October
Net assets	\$10.62B
Holdings	298
Mer²	1.11%
Management fee	0.85%
Nav	\$12.23 USD
Distributions	\$0.1072 Monthly ⁴
Yield	10.5% based on NAV ³

¹ Asset, sector and geographic mix represents the percent of capital deployed.

² For the period ended 2025-06-30.

³ The yield is determined by annualizing the fixed distribution rate and does not include any distributions in excess of the fixed distribution rate that may be paid at the fund's year-end.

⁴ This Monthly distribution is fixed but not guaranteed and may be adjusted from time to time at the discretion of the fund manager.

Risk rating⁵

⁵ Risk rating measures the degree of uncertainty that an investor can handle regarding fluctuations in the value of their portfolio. The amount of risk associated with any particular investment depends largely on your own personal circumstances including your time horizon, liquidity needs, portfolio size, income, investment knowledge and attitude toward price fluctuations. Investors should consult their financial advisor before making a decision as to whether this mutual fund is a suitable investment for them.

Distributions may consist of net income, dividends, net realized capital gains, and/or return of capital. Distributions are not guaranteed and investors should not confuse a fund's distribution yield with its performance or rate of return.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing.

The indicated rates of return are the historical annual compounded total returns including changes in units [share] value and reinvestment of all distributions [dividends] and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. The rates of return are used only to illustrate the effects of the compound growth rate and are not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. Investments in mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

Compound growth calculations are used only for the purpose of illustrating the effects of compound growth and are not intended to reflect future value of any mutual fund or returns on investment in any mutual fund.
