WHY INVEST IN DYNAMIC INTERNATIONAL DISCOVERY FUND ?

- Access to companies outside Canada and the U.S. that are difficult for many investors to purchase.
- A high active share measure means the Fund has a low correlation to the index and many competitor funds, and could be a diversifier in most portfolios.
- The opportunity to have a truly active manager further diversify investor portfolios from a geographic, sector, and capitalization standpoint.

GROWTH OF \$10,000

[1] For the period ended 2024-06-30. [2] Risk rating measures the degree of uncertainty that an investor can handle regarding fluctuations in the value of their portfolio. The amount of risk associated with any particular investment depends largely on your own personal circumstances including your time horizon, liquidity needs, portfolio size, income, investment knowledge and attitude toward price fluctuations. Investors should consult their financial advisor before making a decision as to whether this mutual fund is a suitable investment for them.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing.

The indicated rates of return are the historical annual compounded total returns including changes in units [share] value and reinvestment of all distributions [dividends] and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. The rates of return are used only to illustrate the effects of the compound growth rate and are not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. Investments in mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

R² is a measurement out of 100 that shows the extent to which a portfolio's movements can be explained by the benchmark's movements.
